numbers, only lacking a leader.

**INSPECTOR STUART'S  
WORK CRITICIZED**

His Dilatory Methods in Chicago Post  
Office Cases Disturbs the  
Department.

Washington, D. C., Nov. 25.—The  
postoffice department has been much  
disturbed recently by complaints from  
Chicago of the unchecked operation  
of an anonymous letter writer, whose  
inexplicable mania has caused annoy-  
ance and grief to the recipients of  
these letters, as well as to the per-  
sons whose characters are assailed in  
them. These complaints allege that,  
notwithstanding numerous appeals  
made to the postoffice inspector in  
Chicago, there has been no apparent  
effort made to check the nuisance or  
to apprehend the perpetrator of it. The  
report of the robbery of a collecting  
wagon in the streets of Chicago, Sat-  
urday evening and of the failure of  
Inspector Stuart to clear up a similar  
robbery last March, and the burglary  
of the postoffice building a year ago,  
at which time \$74,000 worth of postage  
stamps were taken, has given the au-  
thorities here considerable concern  
over the efficiency of the Chicago in-  
spector's office.

**CATTLE EPIDEMIC  
IN MASSACHUSETTS**

Foot and Mouth Disease Prevails to an  
Alarming Extent, Many New  
Cases Being Reported.

Boston, Mass., Nov. 25.—Although  
the entire force of inspectors of the  
Massachusetts cattle commission has  
been working hard for the past two  
weeks hoping to stamp out the foot  
and mouth disease, it is admitted that  
the disease has become almost epi-  
demic in this state. Many new cases  
have been reported in towns of East-  
ern and Central Massachusetts.

The last epidemic in England some  
twenty years ago cost that country  
over \$7,600,000, while it took \$8,000,000  
to stamp out a similar epidemic in  
France.

The great increase in the number of  
cases during the past week is causing  
apprehension among the state offi-  
cials. All cattle showing symptoms  
of the disease are being quarantined.

retary Chamberlain has started on his  
mission of peace and conciliatory tac-  
tics to the conquered Boers of South  
Africa. At the docks a most enau-  
stastic crowd saw him off with many  
cheers and wishes for a pleasant jour-  
ney.

Of Much Importance  
The visit of the Premier is of much  
importance both to England and to the  
new colonies. It had been decided  
to understand the situation thor-  
oughly it was necessary that one of  
the officials of the English government  
visit the Boers and Chamberlain was  
chosen.

Finds Men in Philippines to Be in  
Good Condition.

Manila, Nov. 25.—Lieut. Gen. Miles  
will leave here for China, Japan and  
Russia at the end of the week. Dis-  
cussing the Philippines he said: "I  
have seen 13,000 of our troops and will  
inspect more of them before leaving.  
I found them to be in fair condition.  
This is a hard country for campaign-  
ing. I inspected the principal natural  
defenses of the islands and some of  
the harbors which the government  
may fortify. I found the people gen-  
erally impoverished from the effects  
of the war and the pestilence which  
followed it, and I fear some may suf-  
fer from famine. The dearth of farm  
animals leaves the people no means  
of recovery."

this long line of road complete is the  
construction of less than four miles  
of the Vera Cruz & Pacific railroad.  
This portion of the road is slowly be-  
ing finished and the date for the for-  
mal inauguration of this important  
link in the Pan-American line of rail-  
way will soon be fixed.

ploded.

**CANTEEN FINDS  
MANY FRIENDS**

War Department Flooded With Letters  
Asking For Its Re-es-  
tablishment.

(Special By Scripps-McRae.)  
Washington, D. C., Nov. 25.—The  
war department is in constant receipt  
of data concerning the canteen ques-  
tion and the effect of its abolition on  
the army. Apropos of this is a state-  
ment made at the war department  
that only such information as has  
been contained in the reports of army  
officers upon the subject has been given  
to the public, and it is denied that  
any effort has been made to influence  
public opinion on the matter.

It is said at the department that  
the recommendations of the adjutant  
general in his annual report were based  
upon the information contained in  
these reports. It is pointed out  
that the existence of something like  
1,400 saloons in the vicinity of the  
army posts is shown by the reports re-  
ceived at the department, 250 to 300  
of which are said to have opened since  
the closing of the canteen. This fur-  
ther statement is made at the depart-  
ment:

"The majority of posts have reported  
that drunkenness and courts mar-  
tal for drunkenness have increased;  
that desertion and absence without  
leave increased; that the effect of the  
closing of the canteen upon the moral-  
ity, discipline, and health of the troops  
has been bad, and, while many post  
commanders are, in consequence of  
frequent changes of garrison and from  
the absence of correct data upon  
which to base comparisons, unable to  
report as to the degree of detriment  
created by the closing of the canteen,  
it can be stated as an absolute fact  
that in no single case has a post com-  
mander expressed an opinion that the  
effect of the abolition of the sale of  
beer in the army has resulted in im-  
proved conditions."

**PELLETAN BACKED  
BY THE CHAMBER**

Minister Who Reduced the Mediter-  
anean Force Voted  
Thanks.

(Special By Scripps-McRae.)  
Paris, Nov. 25.—Marine Minister  
Pelletan's administration of the navy  
was again subjected to an attack in  
the chamber today, when an interpella-  
tion was introduced criticizing the ac-  
tion of the minister in recently reduc-  
ing the effective strength of the Med-  
iterranean squadron by 1,750 men.  
This reduction, it was asserted, would  
render it impossible for the fleet to  
put to sea instantly if this became  
necessary.

M. Pelletan, replying to the criti-  
cisms, said he was compelled to  
economize in some direction because  
of the construction of warships dur-  
ing the coming year would necessitate  
an expenditure of \$1,600,000 in excess  
of 1902. Owing to the exceptional  
position occupied by France in the  
Mediterranean, it was a more urgent  
matter to expedite the works on the  
naval port of Bizerta than to put 1,700  
men, more or less, on the ships em-  
ployed in promenading between Ville  
Franch and Toulon.

After a brief debate the chamber  
by 238 votes to 204 adopted an order  
of the day approving the declaration  
of the government and then adjourned.

**CONFERENCE IS  
IMPORTANT ONE**

Operators to Discuss  
Strike Situation  
With Mitchell.

**AT WASHINGTON**

A Permanent Settlement of  
the Strike Is Looked  
For as Result of  
the Meeting.

(Special By Scripps-McRae.)  
Washington, D. C., Nov. 25.—Presi-  
dent Mitchell of the Mine Workers  
union and his attorney, Clarence Dar-  
row of Chicago arrived here this morn-  
ing for their conference with the coal  
operators' representatives in a ses-  
sion to be held this afternoon and to-  
night.

Victory For Miners  
It is thought in all circles that the  
concession of the operators in asking  
for a conference is a decided victory  
for the miners and is in direct ac-  
cordance with all the requests they  
have thus far made for a meeting be-  
tween the representatives of both.

Good Results  
Good results are expected from the  
meeting and it is thought that when  
the commission meets Dec. 3 it will  
be simply to end the matter officially  
as the operators will have conceded  
the points the workmen have asked  
for since the first.

**FLOODS IN INDIAN TERRITORY**

Many Families Abandon Homes in  
Washita and Blue Valleys.

Ardmore, I. T., Nov. 25.—A serious  
flood exists in the Washita and Blue  
valleys in the Chickasaw nation, the  
country for miles around being under  
water. In some sections it has rained  
continuously for four days, causing  
the rivers to overflow. Many families  
have been forced to abandon their  
homes and seek shelter on higher  
ground, numerous bridges have been  
washed out and railroad traffic is im-  
peded. No trains have been run over  
the Choctaw railroad into Ardmore for  
some days, and work on the "Frisco"  
road has been stopped. It is believed  
that heavy loss will result to top cot-  
ton.

Hobos at Cleveland Will Also Be  
Treated to a Bath.

cials of the Cleveland Associated Char-  
ities have decided upon an innovation  
that may not be acceptable to the ho-  
boes who seek shelter beneath the  
roof of the organization. Hereafter  
every tramp who asks for a night's  
lodging will not only be compelled to  
take a bath, but will be provided with  
a clean night shirt. The step has  
been decided upon as a sanitary nec-  
essity.

000 persons, mostly Indians, perished.  
The country for more than thirty  
miles around the volcano was buried  
under lava and ashes. Thousands are  
starving and the government is un-  
able to give relief and it is feared a  
revolution will break out.

**KAISER TO SEE  
KRUPP BURIED**

German Gun Maker Leaves His For-  
tune To His Widow and  
Children.

(Special By Scripps-McRae.)  
Berlin, Nov. 25.—Emperor William  
will attend Herr Krupp's funeral. The  
will of the deceased gunmaker, accord-  
ing to a semi-authoritative statement,  
provides that the works shall not  
be turned into a joint stock company  
under twenty-five years. Meantime  
the revenues of the whole property  
will go to the widow and after her  
death to the eldest daughter.  
The suicide theory has not yet quiet-  
ed.  
The Cologne Gazette says:  
"Whether he died of shock due to  
excitement and embitterment over the  
attacks upon him or whether, adjudg-  
ing himself guilty, he took his own  
life are questions which, however,  
answered by the accusation itself,  
must halt at his death."  
It appears that after Herr Krupp re-  
gained consciousness on Saturday he  
insisted on discussing with his solicitor,  
Herr Korn, the prosecutions of the  
newspapers for publishing accusa-  
tions against him and that thereupon  
the second stroke followed.

the supreme ruler of his house, that  
he can keep strangers away who inter-

that he can exclude his mother-in-law

fact that the property he occupies is

## RAILROAD MUST REMOVE TOWER

COUNCIL TOOK A HAND IN RAILWAY FIGHT.

### MARSHAL AUTHORIZED TO ACT

The Council Also Accepted Linden Avenue and Vacates Wilson Street.

The common council at its meeting last evening took up the Academy street tower matter in no uncertain way. The highway committee are determined that the tower shall not remain in Academy or Bluff street and the order introduced by Alderman Rice, instructing the city marshal to notify the railroad company to remove the tower out of the streets inside of three days was passed unanimously.

**Mayor Presides**  
Mayor Richardson presided at the meeting and Aldermen Rice, Murray, McLean, Hutchinson, Kothman, Lowell and Homing answered to roll call.

The reading of the minutes of the last meeting was dispensed with. The application of August Baumann for a transfer of his saloon license to Guernsey & Hanauka, was referred to the license committee and later in the evening was granted.

The finance committee presented the usual batch of bills and the clerk was instructed to draw orders on the treasurer for them.

**Ross Reports**  
The report of Assistant Street Commissioner Ross in regard to the sidewalks built by him this year was presented and accepted. The report shows that during the year he had built 882 rods of cement walk, 119 rods of brick walk and 36 rods of board walk. The report also recommended the passage of an ordinance prohibiting the building of wooden sidewalks out of justice to those who have built brick and cement walks and doing away with the liability to accidents and damage suits.

**Can Borrow \$500**  
The mayor was instructed to borrow \$500 and place it to the credit of the bridge fund and an order be drawn for \$1,519.35 to pay the city. No. 67. An order for \$2,300 in favor of Rock county was ordered drawn on the general fund to pay the county's share of the 46 saloon licenses.

The bond of Guernsey & Hanauka was reported in due form and sureties good and was accepted and placed on file.

**Lease Examined**  
The judiciary committee reported that they had examined the lease prepared by Judge Fife in regard to the municipal court room and were not in favor of the acceptance of the lease as no provision was made in it for the county paying its share for the furnishing of the room. They considered that the county should pay about \$400 for the furniture. The lease drawn up by Judge Fife simply called for the payment of \$333 a year for the maintenance of the room and was not satisfactory to them. The mayor was empowered to execute a lease that he deemed favorable to the city.

**Street Report**  
The highway committee reported Linden avenue had been widened to a uniform width of fifty feet and was ready for public use. The road was accepted by the city and declared to be a public highway. The cost of widening the street was \$453.45. The street railway company, having repaired their tracks the city electrician was ordered to make a number of tests and report at the next meeting of the council. In the meantime the suit on the part of the city against the road was ordered continued for two weeks.

**New Fire Boxes**  
An application for a fire alarm box at the corner of Oak and River streets near the pumping station was referred to the fire and water committee with power to act.

The bond for \$5,000, given by the Beloit, Delavan Lake and Janesville electric road as a guarantee that they would replace the streets in as good condition as they found them, was ordered cancelled and returned to them, they having fulfilled their contract.

George H. Davey, E. H. Davies and C. H. Conrad were appointed to assess the benefits and damages caused by the widening of Linden avenue.

It was made the sense of the meeting that when the council adjourned it should be until Friday night at 7:30 o'clock in order to take care of some street acceptances which were not ready last night.

**Superior's Talk**  
George L. Sutherland addressed the council in regard to the vacation of Wilson street in Mole & Saddlers addition. The street was ordered vacated and the order amended so that there would be no expense to the city.

The fire and police commissioners were given permission to occupy the committee room on the first floor as their office.

The highway committee were instructed to purchase a carload of brick for street crossings.

**Other Work**  
The city clerk was instructed to notify the Wisconsin Telephone company to remove pole that stands in the gutter on North Main street near Burchell's store.

The city marshal was instructed to notify the railroad companies to move the tower out of Academy and Bluff streets within three days or it would be moved by the city.

On motion the council adjourned.

**Vaccinated**  
She was a sweet, young thing, and as he walked along by her side he suddenly remembered that she had been vaccinated and hastened to make inquiries. "You have been vaccinated, haven't you?" he asked. "How is your arm?" She turned to him a face that only too plainly showed that she was suffering and replied mournfully, "Oh, it's so sore I can hardly walk on it." And then she wandered why he laughed.—L. F. S. In November Lippincott's.

## DUCKS ARE PLENTY AT KOSHKONONG

No Shooting in the Spring Responsible For the Number of Small Ducks This Fall.

Ducks still continue to stay at Koshkonong in great numbers. The continued fair weather holds them there at present and they are liable to stay until a cold snap drives them south. The shooting during the last few days has been first-class and many good bags have been made.

So far the fall has been an unusual one, generally the lake is frozen over and the ducks are far south by this time.

The geese and swan have been there during the last two weeks in unusual numbers and the hunters on the prairie have had fine goose shooting. The number of blue bills and black heads at the lake this fall should be one thing in favor of no shooting in the spring. This is the first fall for several years that they have been at the lake in any numbers, and it is due to their not being killed off in the spring while on their way north.

## BICYCLES MAY GO UP IN PRICE SOON

Plans For Reorganization of the American Bicycle Co. May Have That Effect Said Salesman.

Following the appointment of a receiver for the American Bicycle company last September, many conjectures have been put forth by the few remaining patrons of the bicycle as to the effect which the receivership will have. A travelling man for a Chicago bicycle house was in the city between trains last evening, and while here consented to give his views of the matter.

**A Conference**  
He believes that as a result of negotiations which are now under way between the American Bicycle company and the independent manufacturers will probably lead to an increase in the price of bicycles. Col. Albert Pope and President Coleman, so the agent said, have been in consultation regarding the matter. A schedule of the proposed increase will be submitted to the independent manufacturers who will meet in Cleveland on Friday of this week. If it is accepted it will be sent to the American Bicycle Co. for ratification. The schedule will be submitted to the receivers if it meets the approval of the officers of the company.

**Re-Organized**  
If this change in prices is adopted it will materially change the margin of profit, and as the old stock of bicycles is wiped out and there is now a good demand it should tend to brighten the chances of the re-organized company.

The travelling agent spoke with enthusiasm of the work which has been done in the way of re-organization. Since the receivership was instituted the business of the American Bicycle Company has been systematized and concentrated. In the selling department he estimated the saving at nearly a quarter of a million dollars annually. This has been done by reducing the bicycle manufacturing plants to six.

**The Big Trade**  
These are equally divided between the East and the West, requiring only one selling agency for each section. Formerly there were forty-seven factories turning out bicycles. The output is now from the six remaining. All of the others are closed save a few, perhaps a dozen, which manufacture automobiles.

## HAVE DECIDED ON DATE OF MEETING

Will Hold Next Session of Social Union Club on Friday Evening, December 5.

It has been decided by the committee in charge of the meetings of the Social Union club to hold the next meeting on Friday, December 5. This date was changed at the instigation of several members of the club who plan to go to Madison on December 1, with the Twilight club, and who consequently objected to having the meeting on the following evening, Dec. 2, as at first planned.

The committee wish it distinctly understood that it is not expected that it will often be necessary to alter the date of the meeting from the first Tuesday in the month, the regular date for the meeting. At six thirty the supper will be served by the Woman's Auxiliary in the Y. M. C. A. building.

## SHORTAGE IN TURKEY SUPPLY

Thanksgiving Birds and Other Fowl Very Scarce and High in Price.

Turkeys are scarce and high this season and the housewife who wants a nice plump bird to grace the Thanksgiving feast will find herself confronted by a rather serious problem. A visit to the markets today revealed the fact that the supply of turkey is much smaller than in former years and prices are correspondingly higher. Few dealers, in fact, had turkeys to sell at any price. Those who did were asking 15 cents per pound for stock that was plump, nicely dressed and of good general appearance.

**Price High**  
Buyers at first regarded the price as high, but when told that a further advance was likely they stopped complaining. In comparison with former years, today's receipts seemed a more gloomy appearance to the one familiar with the sight in other seasons, when nearly every one in the street was filled with turkeys for Thanksgiving use.

**More Expected**  
Some increase in receipts is anticipated today and Wednesday, but dealers unite in saying the supply will fall considerably below the requirements of the trade. Owing to the scarcity of turkeys other kinds of fowl are being substituted, but the supply of chickens, ducks and geese, too, is much smaller this season than usual.

**The Cause**  
Unfavorable weather is given as the cause of the light supply of turkeys this year, much of the young stock having been killed off by the heavy rains during the spring and summer months.

## FIFTH WARD WILL OPPOSE BRODHEAD

Ward Team Claiming Championship Will Meet City Team at Brodhead Thanksgiving Day.

Having, in their estimation, won the city championship, the Fifth ward foot ball team will now go abroad to win foreign laurels. The first eleven against which they are to measure their strength is the Brodhead City team. The match will take place at Brodhead Thanksgiving afternoon. Villi Hessian, the captain of the Fifth ward men is not ready to make any rash statements as to the results of the game, but he feels positive that his men are capable of withstanding the average city team of their own weight.

## LECTURE ON FIVE POWERS OF ITALY

Miss Kellogg Gave Her Third Talk Before the Monday Club Last Evening.

There was a large attendance of the members of the Monday club at the meeting held in the Congregational church parlors last evening. Miss Louise Phelps Kellogg, of Madison, gave the third lecture in the series on the Renaissance, the Reformation, speaking last evening on "The Five Great Powers of Italy during the fifteenth century."

Miss Kellogg presents information in a very palatable manner and her talks are listened to with keen interest. Last evening she covered the fifteenth century, tracing the development of state power and the rise of the Renaissance.

**Nations Resemble Individuals**  
Miss Kellogg referred to the fact that the development of the nation was the same as that of the individual. At first people fought things out knowing no other way. It took generations to learn the better way of diplomacy and this better way was first developed in Italy. Hence first began to build up state power.

Early in the centuries the cities ceased standing alone and resolved themselves into the five great powers which were under the rule of the Despots. The age of the Despots, during which the Renaissance was built up, was the most brilliant in the history of Italy. The control of the powers was vested in wealthy and powerful families.

**The Five Powers**  
Miss Kellogg then referred briefly to the development of each of the powers and to the families in which the control was vested. Naples and Sicily were more distinctly a kingdom and less in the spirit of the Renaissance. Rome was the seat of papal power, when the Popes were princes rather than the head of the church. Venice was the strongest oligarchy and aristocracy of the time. Milan seemed the most probable ruler of all Italy and under the Visconti family maintained the first standing army and built the great monuments for which Italy is famous.

**Power Of Florence**  
Florence was the leader in Italian politics and with Milan and Naples formed the triple alliance. Florence was controlled by the Medici family, the richest and most powerful in Italy, and they were in reality political bosses. In no other man's life is the spirit of the Renaissance summed up so completely as in the life of Lorenzo de Medici.

**California**

## FOOT BALL HONORS NOT EASILY FIXED

CHAMPIONSHIP IS CLAIMED BY TOO MANY TEAMS

### SCORES WILL PROVE ANYTHING

Three Disputants in Southern Wisconsin, Three in Northwest—One in Northeast of State.

An inextricable maze of conflicting scores stands in formidable opposition to any high school foot ball team which now desires to claim the state championship. Every game which has been recently played leaves the comparative merits of the teams more in doubt than ever before. While ideally an eleven should be playing its best game at its time in the season, and often is, yet several teams have been seriously injured, and are ending the season with a slump owing to an augmented hospital list. Under the circumstances it is difficult to determine whether an early or a late score should be taken as decisive. For example, early in the season Whitewater tied Janesville in a scoreless game, but was snowed under last Saturday by 19 points.

**North Of State**  
In each section of the state the contest has narrowed down to a few competitors, but to decide between those few—aye, there is the rub. In the northwestern part of the state Eau Claire stands practically alone. Her victories in her own district have been numerous and decisive. But she has been defeated by Madison.

In the remainder of the northwestern part of the state Marinette has in past years counted leader of the north, but she has been defeated by Kaukauna, and Kaukauna in turn was taken into camp by Sturgeon Bay. Green Bay also ran up a victorious score against Marinette. But neither Green Bay, Kaukauna, or Sturgeon Bay chooses to consider any defeats which she may have suffered individually, decisive in claiming the state championship.

**In The South**  
Janesville, Fort Atkinson and Madison are still quarrelling over primal honors in the South of the state. The Milwaukee schools have long since been counted out. President Parlin of Wausau, president of the state interscholastic association, has said that Fort Atkinson cannot claim the championship until she has met Janesville again, to play off the zero tie of the first of the season. Fort Atkinson refused to do this at the time, but has since sought a game with the local team.

The following are a few of the scores which may be employed in working out the comparative standing of the teams. Their only weakness lies in the fact that they will give any desired answer.

**High School Scores**  
Janesville, 0; Whitewater, 0.  
Janesville, 19; Whitewater, 0.  
Janesville, 0; Madison, 6.  
Eau Claire, 0; Madison, 12.  
Whitewater, 0; Madison, 6.  
Fort Atkinson, 11; Madison, 10.  
Fort Atkinson, 0; Janesville, 0.  
Fort Atkinson, 0; Lake Mills, 0.  
Milwaukee South Side, 24; Lake Mills, 6.  
Milwaukee South Side, 0; Janesville, 10.

## PLAN TO PLAY AN INDIVIDUAL MATCH

Bowling Game Friday Evening May Be Prefaced By Rolling Contest Between Local and Traveller.

If present plans grow to maturity an interesting bowling match will precede the match in the City League tournament Friday night. On that occasion the Belmonts and All Stars are scheduled as the attraction of the evening, but it is probable that the brilliancy of their luster will be dimmed by the individual match which has been planned as a sort of curtain raiser for the principal performance of the evening.

On that occasion, according to present plans, one of the best of the local bowlers will be pitted against a well-known travelling man, who makes more or less frequent visits to the city, and supposed to be able to bowl rather better than the average. It is said that several sidebets for good sums have been put up in case the match is played.

This evening the Badgers and King Pins will roll in the regular Tuesday evening match of the City League. The Badgers and King Pins are now rubbing elbows for the lead. Each has an average of .750.

## NORWEGIAN SPOKEN IN ENGLISH CLASS

Miss Paulson Has Several Norwegian Pupils in Young Men's Association Educational Class.

Twice a week a class in English is held in the Y. M. C. A. building in connection with the night study courses. Miss Paulson is the teacher of the class and her pupils are four young Norwegians who are applying themselves manfully to the task of learning the intricacies of the tongue of their adopted land. Or all of the classes of the association educational course this is said to be the most interesting. Often a snag is struck which proves a decided obstacle to the students, and for a time both teacher and taught are forced to resort to the Norwegian language before everything is plain sailing again.

## A THANKFUL THANKSGIVING

"DON'T feel as if I should enjoy this Thanksgiving," said Mrs. Joel Nisbett, looking down into the basket of glossy, red checked Spitzbergs as if it were a family vault and taking up an apple as if it had been a skull. "No, I don't."

"Then, Sarepta," observed her husband, who had just thrown a huge log on the open fire, "you don't disarrange nothing to be thankful for! It's as handsome a turkey as ever flapped, and I don't know of a year when I've had nicer pumpkins on that ar' corp lot!"

"Tain't turkey or pumpkin pies or cranberry sass as makes Thanksgiving," sighed Mrs. Nisbett.

"What is it, then? Et it's cold weather, I should ha' thought the last-frost would ha' done the business for you pretty fairly. Them artemisins by the front door is scorched black, and the old maple is losin' its leaves as if they

"I AM GOING TO BE MARRIED," was rarin' down. Parson Jarvis is comin' all the way from Statesville to preach tomorrow, and the quire's larned a bran' new anthem just a-purpose, about bein' thankful for harvest and all that sort of thing. I'm sure I don't know what else you'd have."

Mrs. Nisbett only answered by a sigh.

"I wonder if 'tain't possible Stephen will be hum tonight," she said after a pause.

"He writ not. He thought he'd drop in arly tomorrow mornin' if he caught the train he expected. Only think, old woman; it's five years since Stephen was hum to Thanksgiving!"

Old Nisbett rubbed his horny hands, with a chuckle, adding:

"And I s'pose, if all accounts is true, he's gettin' to be a great man out in that western country. It was kind of a hard pull when he went off and left us, but maybe the boy was in the right."

"Yes," said Mrs. Nisbett dolorously, "but somehow I can't get reconciled to the idea of his marryin' a strange gal out there."

Joel scratched his head. This was a phase of the subject that he scarcely felt compelled to discuss.

"Maybe you'll like her, Stephen says she's a nice gal."

"Stephen says! As if a man over head and ears in love wouldn't say anything."

"I wish he'd told us who she was."

Mrs. Nisbett frowned again. Joel went out to the woodpile, the everyday shrill whence he generally derived what little of philosophic inspiration he had.

"Mrs. Nisbett!"

It was a soft little voice, and the old lady's face relaxed instinctively as it sounded on her ears.

"Why, Lida Tremaine—'tain't you?"

"It is. I've done everything that Aunt Constance wanted, and now I've just run over to see if you don't need a bit of help."

She stood in the doorway, a fair little apparition, all flushed and rosy with the November wind, while her blue eyes sparkled as if they were twin sapphires hidden away under her long, dark lashes. She was neither blond nor brunette, but a fresh cheeked girl, with nut brown hair, skin like the leaf of a damask rose, a straight, refined nose and lips as ripe as a red crabapple, though by no means so sour. Generally she had a demure sort of gravity lingering about her face, but when she did laugh a dimple came out upon her cheek and a row of pearly teeth glimmered instantaneously.

In one hand she carried a bunch of late autumn flowers.

"See!" she cried, holding them up. "I ransacked Aunt Constance's garden for these. I knew that big vase on the mantel needed something, and, with a branch or so of scarlet leaves, I'll have a royal bouquet to help you keep Thanksgiving."

Mrs. Nisbett took the fair oval face between her two hands and kissed the fresh little mouth.

"Set down, Lida," she said, "I wasn't a-calculation to have no red flaxin' up, but you've seen a way, child, I can't never say no to you."

"But you're going to keep Thanksgiving," cried Lida, throwing off her outer wrappings and dancin' up to the looking glass like a little gale of wind, "because you invited Aunt Constance and me to dinner and because your son is comin' home."

"Yes, child, yes," said Mrs. Nisbett, subsiding once more into the mournful key from which Lida's sudden appearance had momentarily aroused her. "Joel's got the turkey shut up in a coop, and the bakin' 's done, and I'm just a-dixin' them apples, and—"

"Oh, oh," cried Lida, who had flattered to the window, "what glorious red leaves speckled over with little drops of gold! May I make some wreaths for the wall? Oh, please say yes!"

Mrs. Nisbett said "yes"—it would have been hard work to say "no" to Lida—and the girl soon came in, her apron full of the sprigs of the old maple tree, whose shadowy boughs hung through the window veiled with cool shadows through the glaring summer days and showered fading gold upon the dead grass when the autumn came.

Mrs. Nisbett looked with tenderness upon the graceful little figure seated on the hearth rug, when the shine of the high heaped logs lost itself in her bright hair and made sparkles in her eyes, as the wreaths and trails of autumn leaves grew rapidly beneath her deft fingers.

"Lida," she said softly, "Lida, my dear!" Lida looked up.

"I saw your Aunt Constance yesterday, but there's somethin' reserved about her, and I didn't like to ask about you—whether you had decided to go out as a governess or not; because, my dear, Joel and I were talkin' last night, and we both thought what a comfort it would be to have you here."

"To have me here?"

"We're old and we're alone, and somehow we've both took a fancy to you, my child. So when your Aunt Constance goes back to the city, if you choose to come here—"

Mrs. Nisbett paused abruptly and burst into tears.

"We had a little girl once, my dear, and if she'd lived she would ha' been nigh about your age."

Lida let the leaves drop down on the floor as she sprang up and threw both arms round the old woman's neck.

"Oh, Mrs. Nisbett," she whispered softly, "you are so very, very kind. Believe me, I appreciate it all, but—but—I hardly know how to tell you."

Mrs. Nisbett listened intently. Lida smiled and cried a little and then whispered so low it was scarcely audible.

"I am going to be married."

"Married!" ejaculated Mrs. Nisbett, with all a woman's interest in this important piece of information. "And who to?"

"Your son lives in Iowa—in Parlington."

"Yes."

"Well, did he ever mention the name of—"

Lida paused, her cheeks glowing roses. Old Nisbett had come in with an armful of wood, bringing a gale with him from the frosty outer world.

"I'll tell you by and by," whispered Lida as she went back to her work.

"Joel! I'll go out again after awhile," thought Mrs. Nisbett, "and then I'll hear about Lida's beau."

But Joel sat down before the fire with a complacent satisfaction which boded ill for the gratification of his wife's curiosity, and finally accompanied Lida home, thus frustrating all his wife's designs and cutting off her chance of hearing Lida's story.

"Dear me!" thought she, "I don't believe the man was ever born who knewed when he wasn't wanted! How loavesome it seems when Lida's gone! What does the girl want to get married for when I could ha' took such a slight o' comfort with her? Oh, dear, dear! It does seem as if the world was all askew!"

The next day, in spite of the weather prophet's prediction of snow, dawned clear and brilliant as the dying smile of Indian summer. By 11 o'clock Mrs. Nisbett was dressed in her best silk and cap, with the turkey browning beautifully in the oven and the cranberry tarts doing credit to themselves as well as to their maker, the table set, the fire high heaped with crackling logs and the plates dressed with cornals of autumn leaves. Aunt Constance, a tall, prim maiden lady of uncertain age, stood before the bedroom looking glass arranging her coiffure.

Lida, in a blue dress with a late autumn rose in her hair, was tripping blither and blither as light footed and helpful as half a dozen household fairies merged into one, while Mrs. Nisbett stood regarding her with a loving eye, murmuring to herself:

"Well, well, it seems like it was the Lord's will to deny us of just what we most want, but if I had a daughter I could wish she was like Lida."

As the old kitchen clock struck 1 Mrs. Nisbett, looking from the window, gave a little cry.

"There he comes—there comes Joel, and, as I live, there's the boy with him!"

Lida ran into the bedroom.

When she returned, Mrs. Nisbett was clasped in the arms of a tall, handsome man of four or five and twenty.

"Lida," said the proud matron, striving to disengage herself from the affectionate clasp, "this is my son Stephen, and—why, what's the matter?"

For Stephen had dropped her hands with an exclamation of surprise and amazement, and Lida stood there glowing crimson.

"Lida! Why, mother, this is a surprise indeed that you have prepared for me!"

"I prepared!" echoed the astonished old lady. "Well, that's a good un, when I'm ten times as much surprised as you be! Lida, what does this mean?"

"It means," said Lida, with a demure smile—she was beginning to recover her scattered self-possession—"it means that this is the gentleman I am to be married to!"

"Stephen!" cried Mrs. Nisbett, "is Lida to be your wife?"

"She has given me her promise to that effect, at least," said Stephen,

looking proudly down upon his lovely little fiancée.

"Well, if it don't beat all how queer things do happen!" said Mrs. Nisbett, her face radiant. "And you've been livin' neighbor to me these six weeks and I never knowed it. Lida, why didn't you tell me?"

"Because I never dreamed that Stephen Rishingham, my betrothed western lover, was anything to Mrs. Nisbett," said Lida, laughing.

"There 'tis, now!" ejaculated the farmer. "How was 'sue to know that he was only my nephew, adopted when his parents died, twenty good years ago. We've always called him son, and he's always been a son to us. But Lida didn't know. Old woman, what do you say to Stephen's wife?"

Mrs. Nisbett clasped Lida to her heart.

"I do say," she ejaculated, "this is the thankfulest Thanksgiving I ever lived to see!"—New York Daily News.

### IN THE THEATRICAL WORLD

#### Miss Percy Haswell's Career

Miss Percy Haswell, who appears with her company in "A Royal Family" next Thursday was born in Texas, the daughter of a public man whose duties called him to Washington. There she was educated at a convent, and as a little girl she exhibited precocious talent which caused her father to plan for her a career on the stage. Encouraged by his approval Miss Haswell studied plays as well as books, and at her mature age of 13 she was taken to New York and placed in the charge of Mrs. Waller, an old-time actress with old-time theories of acting. Mrs. Waller industriously drilled her young pupil in roles which the latter has since learned to regard with rather more awe than enthusiasm, and long before she reached the dignity of long skirts Little Miss Haswell knew the lines of Juliet and recited them with rather rare effect.

She made her debut at 15, and for several years thereafter was a member of Augustin Daly's forces. From time to time Mr. Daly shifted her to

his operatic organization, and she appeared in a number of popular operas. Thus, she laid a foundation for the culture of her particularly melodious speaking voice. The classical, however, was her forte and her success in "The Twelfth Night," "Much Ado About Nothing" and "The Tempest" is well remembered.

For a while Miss Haswell was a member of Ada Rehan's company and while on tour in England and America sometimes alternated roles with Miss Rehan and becoming virtually the leading woman of the company in the absence of Miss Rehan.

Miss Haswell left the Daly company to join that of W. H. Crane, and for three seasons she was his leading lady. Her charming work in "A Virginia Courtship" was one of the causes of that play's success.

In the spring of 1899 Miss Haswell played a spring engagement as the star of a stock company in Washington. He success was so pronounced that she accepted an offer to remain at the capital for the entire season. She then became an executor and artistic director as well as the star of her own stock organization winning such distinction that she attracted the general attention of managers and her present tour of the principal cities of this country is the result.

In the stock company work Miss Haswell has played over 250 different roles. Her work in this line has been incessant requiring her application for a long period day and night to study the many different roles she impersonated. She attributes her success to the development she secured in this line of labor. Miss Haswell is one of those rare actresses who seem to make the admirers of their art become the admirers of their impersonality. She has since her entrance on the stage been connected with only the representative of American attractions and the dignified position she is now filling is a just tribute to her untiring efforts and earnest endeavor.

## PRESIDENT BAER BALKS AT PLANS

### ROOSEVELT CALLS MITCHELL

Miners' Leader and His Attorneys Go to Washington to Confer With Nation's Executive—Nothing Known of Object of Visit.

Philadelphia, Nov. 25.—The Reading railroad, the chief of the anthracite railways, it is now declared, refuses to countenance a strike settlement out of court, and will probably protest against any interference with President Roosevelt's original plan to bring about peace. The Reading's position will be stated by President Baer at a meeting of the anthracite railway presidents in New York. Reading interests have heretofore dominated every move on the part of the coal operators since the strike began.

Taken by Surprise.

It is affirmed that the Reading people were astounded by the announcement that the great dispute was to be brought to a conclusion by amicable agreement. Interests affiliated with the Reading do not hesitate to avow their amazement at the statement of Wayne MacVeagh, and it was declared that in his public communications "he did more for the miners' side than he could have done had he been their own counsel." The Reading, it is stated, will demand that the president's commission proceed with its work and insist upon holding it accountable for the outcome.

Summons Mitchell.

President Mitchell has left here for Washington, where, it is said, he had been invited to meet Wayne MacVeagh. He was accompanied by Clarence S. Darrow, Henry D. Lloyd of Chicago and Miss E. C. Morris, his private secretary.

A committee of independent operators has left here for New York. Their mission is best expressed in a statement made by one of the representatives of the small companies, who said:

Independents Balk.

"The independent companies are paying the miners as much now as they can afford, and if an increase in wages is granted by the larger companies the larger companies must give the independents a lower freight rate to meet the increase in wages. If they refuse a concession in freight rates or its equivalent, then it is probable the independent companies will insist upon the whole matter being thrashed out before the commission."

## TRIES TO END HIS LIFE WITH IODINE

BRODHEAD YOUNG MAN DRANK POISON LAST EVENING.

## SAYS HE HAS MANY TROUBLES

Drinks An Ounce of Tincture of Iodine on Main Street—Travelling For Chicago Firm.

"I've got troubles you don't know about" was the only explanation which Joe Halmson, who attempted suicide last evening, would give for his action. Immediately after he had taken the tincture of iodine with which he hoped to put an end to the troubles which were oppressing him. It was at about nine o'clock in the evening when Officer Fred Behneke noticed a young fellow, neatly, even unusually well-dressed, standing in front of Sheldon's hardware store on Main street in unmistakable distress. Supposing that he was simply a victim of liquor who might be better off in the lock-up, he asked him what the matter was.

"I did something bad, but I drank something good," was the answer.

Read Name From Book.

On questioning him further Mr. Behneke elicited a confession that he had attempted to commit suicide to put an end to his troubles. As to the nature of the troubles he refused to give an information, and indeed, he was in no condition to talk at any length. When asked what he had taken, he referred to a memorandum book which he carried, and running his finger down a page on which a list of poisons was given, finally responded, "Iodine."

He was immediately taken to McCue and Buss's drug store, where for nearly an hour he was attended to before he was taken to the Palmer Memorial hospital for further care.

Home in Brodhead. Further inquiries brought out the knowledge that his home was in Brodhead, but for some time past he had been living in Chicago. Since Friday he had been staying at Smith's hotel in this city.

Cards in his pocket proclaimed him road superintendent of the American Literary and Musical association of Chicago. The company, according to the cards, is a publishing concern which makes a specialty of "choice literature and music." On the back of one card was given the list, "Janesville, Evansville, Madison, line from Madison to Dodgeville," evidently a route which he intended to follow in his duties as superintendent.

On the back of another card was a receipt for ten dollars applied on his contract with this same concern for the date, Nov. 20, the day before he came to this city. According to a foot note on the card he still owed a balance of five dollars.

Very Well Dressed.

His whole appearance gave no token that he knew financial difficulties. His clothing was of good quality and in the best of condition. He seemed to be twenty-one or two years of age. Although the name, Joseph Halmson, would seem to point to Norwegian birth, his features did not indicate it.

His talk was coherent and he gave no indication of having been drinking before taking the tincture of iodine. He said he swallowed the contents of an ounce bottle which he had with him, and it was evident that the mordant liquid was eating him from within and causing the greatest pain.

About two hours after he was taken to the Palmer hospital, his pulse was regular, and he seemed to be resting more easily, although he was weak and unable to talk freely.

Dr. Palmer's verdict today regarding the young man's condition was, that he seemed to be getting along nicely, although there was a possibility that the after effects might prove more serious.

His pulse was normal, and he did not exhibit any dangerous symptoms.

## ANNIVERSARY IS WELL OBSERVED

MR. AND MRS. W. A. JACKSON HAVE A WOODEN WEDDING.

## AT THE HOME OF F. F. STEVENS

House Is Decorated With Wooden Shavings and Unique Prizes are Awarded at Hearts.

Five years ago last evening Mr. and Mrs. W. A. Jackson stood before the altar at Christ Episcopal church and took upon themselves the vows which made them man and wife. Last evening, in honor of their wooden wedding, there was a merry gathering at the home of Mrs. Jackson's parents, Mr. and Mrs. F. F. Stevens, 106 Park Place.

A company of about thirty young people enjoyed the hospitality of Mr. and Mrs. Stevens, who were assisted in receiving their guests by Mr. and Mrs. Jackson. No wedding anniversary was ever more appropriately celebrated, every detail being in perfect harmony with the occasion.

Decorated in Shavings. Especially unique were the decorations of the parlors, long wooden shavings being used in profusion. The graceful curls of pale yellow hung in the archways, from curtain poles and chandeliers, making an unusual, appropriate and effective decoration. Deep red roses were also used in abundance and many comments of praise were bestowed on the artistic and elaborate decorations.

Played Hearts. The spirit of the occasion was also evidenced in the game which was chosen, the evening being devoted to playing hearts. At this game George Sale proved the most proficient and won the first prize, a handsome book rack in burnt wood. The consolation prize, which was awarded to F. C. Burpee, was original and clever in design, being a long string of wooden beads to which was attached a pendant in the shape of a wooden heart bearing the inscription, "I can't beat."

After the card games, the tables were laid for luncheon.

Received Many Gifts. Material reminders of the happy event were left with Mr. and Mrs. Jackson, who received many presents in wood. The majority of these were in the nature of a joke, the guests each presenting some amusing article. In addition to these significant souvenirs, appropriate to the occasion, Mr. and Mrs. Jackson were also presented with a dozen solid silver forks of handsome pattern, the gift of the company of guests who enjoyed the wooden wedding with them.

## LADIES BESIEGE CAMP OF WOODMEN

Royal Neighbors Entertain Gentlemen to A Surprise Dancing Party and Luncheon.

As a rule, the regular meetings of Florence Camp, No. 356 Modern Woodmen of America, pass off smoothly and without hitch of any kind but last evening the peaceful customs of the camp were broken and an adjournment without form or ceremony was forced right in the midst of the business meeting.

Camp Is Invaded. Shortly after eight o'clock the camp was aroused by a terrific bombardment at the entrance. A moment later and the door was thrown open, the outside sentinel having been taken captive, and an army of ladies invaded the lodge room. Being taken so completely by surprise there was nothing for Florence camp to do but to surrender and it was done hastily and with apparent willingness.

The invading army was composed of members of Crystal camp No. 13, Royal Neighbors of America, their ranks being increased by Woodmen's wives who are not members of the auxiliary organization. The ladies had marshalled their forces at the Peoples' Drug store and at Morse's restaurant, meeting at the foot of the stairs leading to the lodge room. They had an orchestra with them to inspire them on to victory.

A Jolly Dance. After the gentlemen had welcomed the fair invading host, the lodge paraphernalia was hustled out of sight, the orchestra was given the place of honor on the platform and the floor was cleared. The balance of the evening was devoted to dancing. Everyone had a jolly good time. The floor was cared for splendidly by a committee of gentlemen consisting of O. M. Fisher, Dr. George H. Webster, Oscar Mable and John Boyes.

Luncheon Served. During the evening an appetizing luncheon, consisting of coffee, sandwiches and doughnuts, was served by the ladies in the dining room. The committee which had charge of the surprise so pleasantly perpetrated on the Woodmen was composed of Mesdames Lyman Morse, George E. Tanberg, William Tucker, Warren Haskins, John Boyes, Charles Kemmerer and Joseph Blaw.

LODGE MEETINGS TONIGHT. Janesville Lodge, No. 251, B. P. O. E. at K. of P. hall. Woman's Catholic Order of Foresters at Forester's hall. Janesville City Lodge No. 90, I. O. O. F. at West Side Odd Fellows' hall. Machinists' Union at Assembly hall.

Turkeys and Ducks. This evening and tomorrow evening there will be a big raffle for ducks, turkeys and geese at James Sennett's, and on Thursday evening a fine graphophone will be raffled. On each evening a hot turkey lunch will be served. A good chance for the Thanksgiving turkey.

## RARE CHANCE FOR MINE INVESTMENT

Idaho Central Gold Mining Company Will Offer Stock For Sale.

Mr. L. M. Williams, Vice-President of the Idaho Central Gold Mining company of Chicago, who has been in the city the past few days arranging for a representative in Janesville and vicinity, has appointed D. W. Watt will offer in the Hayes block as the company's agent.

The company is of recent origin having only been organized since the latter part of September, its officers and directors are business men of known integrity and the enterprise bids fair to become one of the strongest and most successful of any of those in the field.

Thunder Mountain Region. The property is located in the famous Thunder mountain district of which William Allen White has so graphically described in the last three issues of the Saturday Evening Post.

The holdings consist of four claims on Dynamite creek, and all authorities agree that the district will in time eclipse even Cripple creek. The company's mining engineer, Mr. Alfred Skeels, a well known authority, accompanied William Allen White on his trip through Thunder mountain.

Is Developing Mine. Mr. Skeels is in charge of the development work which is already in progress. Tunneling was commenced on the property some weeks ago and the ore is being placed on a dump ready for stamping in the spring. The material is of the free milling or stamping formation, and shows a splendid paying assay at the start.

Work is to be pushed all winter as the weather permits and it is expected that a test stamp mill will be in operation early in the spring. Investigation shows a conservative management and an aggressive manner of business conduct on the part of the company's officers.

Are Prominent Men. All of the directors have other business interests and not a salaried position is on the entire board. The enterprise is not a stock jobbing institution and only a limited amount of the capital stock will be sold. The opportunity for investment is without doubt, a rare one and will bear full investigation.

## STORAGE BATTERY AND REPEATER HERE

New Apparatus Arrived Yesterday Afternoon and Will Be Installed at Once.

The balance of the new storage battery ordered a short time ago arrived in the city yesterday afternoon and was taken to the chief engineer's room in the city hall, where it was opened up by Chief Klein.

The apparatus just received consists of a six circuit repeater which is twice the size of the one now in use which will be returned to the factory. Under the six circuit system, should anything happen to one circuit it will not cripple the department or leave any district without the protection of the call boxes.

The controlling or switch board is one of the best of its kind. It is a large slate slab fitted with all of the necessary switches and cut offs. It also has connections for the 120 cells of the storage battery which will be placed in one of the basement rooms of the building.

The apparatus was built by the Gamwell Fire Alarm Co. and pleases Chief Engineer Klein very much. The wires and connections for the new system are all in place and the work of installing the new plant will be begun at once.

The furniture for the switch board and repeater have been here for some days awaiting their arrival. It will take about two weeks to get the new system in running order.

## WHAT PEOPLE ARE DOING

Put in Curbings: The Chicago, Milwaukee & St. Paul road is putting in stone curbings along its property line on Academy street in the west end of the new depot ground.

Small Blaze From Lamp: The overturning of a portable kerosene lamp at the home of L. A. Babcock, 113 Milton avenue, was the cause of an alarm of fire being sent in shortly before six o'clock last evening. There was considerable excitement at the house for a few minutes, but the blaze was extinguished before the department arrived although they made quick time. The damage was nominal.

Brings Factory Back: A. C. Hough of the Hough Forth Shade company returned yesterday from a month's sojourn at Worcester, Mass., where he has been superintending the removal of the company's stock and machinery. He reports delightful weather in the East, which was very favorable for their getting the goods ready for shipment here.

## CLOCK AND BELL TO BE INSTALLED

BELL HAS BEEN HERE FOR SOME TIME.

## CLOCK ARRIVED THIS WEEK

Walter J. Buckley, Will be Here Wednesday and Thursday to Make the Change.

The new clock and striker for the city hall have arrived and will soon be placed in position and the clock now doing service in the tower removed. The new apparatus is now at the freight house ready for removal to the city hall.

A Big Bell. The bell which is about twice the size of the bell at the West side fire station has been here for some time awaiting the arrival of the clock.

A Model Clock. The clock is made by the Seth Thomas Clock Co. and is practically the same as the clock now in service in the city hall tower, with the exception that it has the striking arrangement.

Will Be Installed. The building committee this morning received a notice from Walter J. Buckley, the gentleman that set up the other clock, that he would be in the city Wednesday or Thursday and start making the change.

An Improvement. The new clock with its striker will be a great improvement over the one now in use. While the clock faces are now illuminated at night so they can be seen from a distance, very little attention is paid to them by the casual passer by. When the striker and bell are installed the stroke can be heard all over the city and people's attention called to the time.

## THANKSGIVING DAY IN CITY CHURCHES

Special Services Will be Held on Thursday Morning—Two Union Meetings.

Preparations for a fitting observance of Thanksgiving day with services which will reflect the true spirit and object of the occasion are being made by the majority of the local churches and next Thursday many people will be assembled in houses of worship to spend a part of the national holiday in devout praise and thanksgiving.

Large Union Service. The largest service will be the one in which the congregations of the Baptist, Presbyterian, Congregational, Court Street M. E. and First M. E. churches will unite. For many reasons the plan of holding this service in the evening has been abandoned and the custom of former years will be followed, the service being held in the morning at 10:30 o'clock.

At First M. E. Church. This union service will be held in the First M. E. church and the Thanksgiving sermon will be preached by the Rev. J. T. Henderson, pastor of the Presbyterian church, both the place of meeting and the preacher of the sermon being determined by the rule of rotation. The music for the service will be furnished by the First M. E. church and the pastors of the churches which unite will take some part in the service.

Episcopal Churches Unite. Thanksgiving services will also be held by the Episcopal churches, the parishes of Christ and Trinity churches uniting in a service at Trinity church at 10:30 o'clock. The sermon will be preached by Rev. A. H. Barrington, rector of Christ church and the choir of Trinity church will give the musical service. Early morning services will also be held at both churches, at Trinity church at 7:30 o'clock and at Christ church at 8 o'clock.

At the German Churches. A special service will be held at St. Paul's German Lutheran church Thursday morning at 10 o'clock. Rev. C. J. Koerner officiating. At St. John's Evangelical Lutheran church the Thanksgiving service will be held on next Sunday.

Thanksgiving Dinner. Turkeys, chickens, Oysters, celery, cranberries, elder, boiled ham, sweet potatoes, succotash, corn, pickles, pumpkin pie, English plum pudding, Mocha and Java coffee, grapes, nuts, apples, oranges. All at Lowell & Co's.

Golf Club Party. On Thursday evening the annual party of the Sinsissippi Golf club is to be held at Central hall, and those who have been invited to previous parties of the club are cordially invited.

Whitewater 12; Milton 10  
Whitewater had a close shave yesterday in a football game at Milton. Milton scored in the first minute of play on a double pass, and another touchdown came in the second half about as easy. Milton played a strong game, but the exhibition put up by Whitewater was poor to put it mildly. The absence of W. Green, Crew and Whitney was noticeable and weakened, perceptibly the left side of the line. Whitewater must take a decided brace to win, or even make a strong showing against the DeKalb team on Thanksgiving day.—Whitewater Register.

## Constipation Makes Bad Blood.

### MULL'S GRAPE TONIC CURES CONSTIPATION

Constipation is the rotting and decaying of undigested food in the alimentary canal. Disease germs arise from this festering mass, which find their way into the blood. The blood becomes impure and shortly the entire system gives way to the unhealthy condition.

You cannot cure a case like this by taking pills or other common cathartics. A laxative will not do. A blood medicine is ineffective. Mull's Grape Tonic is a gentle and mild laxative in addition to being a blood-making and strength-giving tonic which immediately builds up the wasted body and makes rich, red blood that carries its health-giving strength to every tissue at every heart beat.

Mull's Grape Tonic is made of pure crushed fruit juices and is sold under a positive guarantee.

Doctors prescribe it. All druggists sell it at 50 cents a bottle. Send 10c to Lightening Medicine Co., Rock Island, Ill., to cover postage on large sample bottle.

## MESSAGE TO HIT AT THE COMBINES

### TO AMEND THE SHERMAN LAW

Prominent Members of Congress Consider It Possible to Secure Anti-Trust Legislation Without Resorting to an Extra Session.

Washington, Nov. 25.—President Roosevelt had another day of conference with congressional leaders, prior to putting the finishing touches on his message to Congress. Among his callers were Speaker Henderson, Representatives Cannon and Babcock, and Senators Cullom and Lodge. A majority of the Republican leaders believe that trust legislation is practically assured, if the President insists on it. They take the position that the legislation had better come during the short session than at an extra session.

**To Strengthen Sherman Law.**

They consider it a comparatively easy task to amend the Sherman antitrust law so as to strengthen it and embody the President's idea of public utility, provided ambitious statesmen can be persuaded to suppress personal vanity and permit the commission of the judiciary of the two houses to do the work. There is a strong disposition among the leaders to avoid an extra session by crowding into the short session the bulk of the legislation with the President will urge.

**Cannon in the Lead.**

Representative Cannon is everywhere greeted as the speaker of the next house. His latest poll shows 4 votes pledged to him by various state delegations, with five more assured by individual members, making a total of 17, thirteen more than a majority of the Republican caucus of the next house.

### PACIFIC CABLE.

#### Commercial Company to Lay Line From China to Philippines.

Washington, Nov. 25.—Within a few days the Commercial Cable Company will receive the duplicate sets of charts and soundings made by the Nero, and within a year, if the company abides by its contract, there will be an independent American line of operation between the Philippines and China. Arrangements have been made for turning over the charts, soon as the company signs the contract, prepared by the Attorney General. Charts will carry the cable from Hawaiian Islands to Midway Island, and then to Guam; thence two lines will extend, one to Manila and the other to Yokohama.

In return for the concession company will obligate itself to employ only American operatives when the cable is obtainable; that the cable shall be touched at no other than American ports; that the United States shall at all times have the right to purchase the cable and property at an appraised value to be fixed by disinterested persons; that the government shall have authority to assume full control of the cable during war or when war threatened, and that rates for commercial messages shall be reasonable.

**Department of Commerce.**

Washington, Nov. 25.—Representative Hepburn talked with the President concerning the department commerce bill. Mr. Hepburn asked the appointment of a committee of experts from the several departments to confer with his committee on the bill to arrange the various bureaus that should be included in the new department. Such a committee will soon be selected by the President. Colonel Hepburn thinks a department of commerce may be agreed on before the end of this Congress.

**Virginia Test Case.**

Washington, Nov. 25.—At the request of the counsel on both sides, the case brought to test the validity of the new constitution of Virginia Chief Justice Fuller will sit in hearing Friday at Richmond on application for a permanent order restraining the state board of canvass from issuing certificates of election to the ten congressmen-elect. The fact of the case is to throw out the whole congressional delegation from Virginia on the ground that the voters of the state were deprived their franchise.

**Federal Building Sites.**

Washington, Nov. 25.—Assistant Secretary Taylor has selected sites for federal buildings as follows: Pierre, S. D., northeast corner Rehr and Huron streets, \$5,000; Elkhart, Ind., northwest corner Main and Jackson streets, price \$11,900.

**Will Stay at Washington.**

## SHOT FROM PISTOL KILLS A BROKER

### FAMILY CLAIMS ACCIDENT

Noted Financier Was in His Room Preparing to Go to His Office When the Muffled Sound of the Revolver Was Heard.

Chicago, Nov. 25.—A bullet pierced the brain of Charles M. Moore, a member of the firm of A. J. Whipple & Co., stock brokers, while he stood before a mirror in his bedroom at the family residence, 4167 Grand boulevard. The leaden missile entered the unfortunate man's forehead at a point midway between the eyes, but whether he fired the fatal shot with intent to commit suicide or whether he lost his life through the accidental discharge of a revolver which he was storing away for the day a coroner's jury was unable to determine.

**Advance Suicide Theory.**

The police incline to the suicide theory, while the family insist that the head of the household was the victim of an accident. The utter absence, according to the information at hand, of any motive for suicide prevents the friends and business associates of the dead man from placing any confidence in the suicide theory. His father-in-law, Judson Sherman, a resident of Lake Geneva, who was visiting his daughter and her husband, made the third member of the trio at the breakfast table.

**Changes Usual Custom.**

The custom of Mr. and Mrs. Moore was to take a short drive each pleasant morning before he drove downtown to his office. He went to the stable to order out the horses, but when he returned to change his clothes he said to his wife that he believed he would drive straight down to the office. Mr. Moore then went to the floor above, and a minute or two later a faint report of the shot was heard, quickly followed by a thud as his body fell to the floor.

**No Powder Marks.**

The only theory which the members of the family are able to advance is that Mr. Moore in some manner discharged the revolver while he was removing it from beneath his pillow to put it in a bureau drawer, which he did every morning. One circumstance of no small importance supporting the theory of accident is that, according to Deputy Coroner Flanagan, there were no powder burns about the wound. It is thought hardly possible that this would be the case had Mr. Moore shot himself intentionally.

### FREE A BANKER FROM PRISON

#### Depositors Receive Half Their Money and Agree Not to Prosecute.

Bedford, Ia., Nov. 25.—H. E. Christianson, a banker of Saarpburg, Ia., was released from the county jail here. He at once drove across the state line into Missouri. His release was the result of a settlement of his trouble with the depositors of his bank. He opened the bank with \$15,000 capital about a year ago. In settlement Christianson turned over \$13,000, with the understanding that he will not be prosecuted.

What would you give for a Good Appetite?

Not a false appetite, such as is aroused by powerful and deadly drugs like strychnia, quinine and nuxvomica, but a healthy appetite for good food? As our old doctor used to say, "If you can't eat, you can't work," and we might add, "or play either."

We are very sure that Vinol will find your lost appetite. It will arouse the vital organs to call for wholesome food and help them to absorb it.

Vinol is a non-secret union of the valuable principles of organic iron, cod liver oil and a good table wine.

It is pleasant to take, and both nourishes and creates an appetite for nourishment.

Thousands of bottles have been sold on the guarantee of "money back," if not satisfied, and a dissatisfied customer is very rare.

**DIZZINESS.**

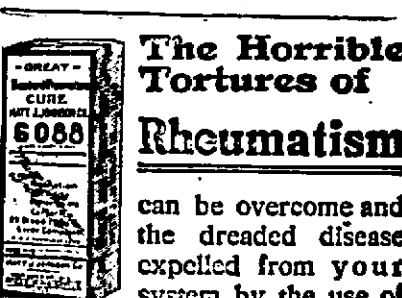

A great many women are subject to spells of dizziness, spots before the eyes, and a ringing noise in the head. These symptoms are commonly associated with liver "trouble" as the result of a diseased condition of the stomach and other organs of digestion and nutrition.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and the allied organs of digestion and nutrition. It cures through the stomach diseases seemingly remote from that organ, but which have their origin in a diseased condition of the stomach and digestive and nutritive system. Hence, cures of heart, lungs, liver, kidneys, and other organs are constantly effected by the use of Dr. Pierce's Golden Medical Discovery.

There is no alcohol in the "Discovery" and it is free from opium, cocaine, and all other narcotics. Some dealers may offer a substitute as "just as good" as Dr. Pierce's Golden Medical Discovery. There's more profit in substitutes for the dealer. There's more health in the "Discovery" for you. Don't be imposed on.

"It is with the greatest pleasure I write you the benefit my mother has received from your 'Golden Medical Discovery,'" says Miss Carrie Johnson, of Lovesville, Amherst Co., Virginia. She suffered untold misery with uterine disease and nervousness, and had a constant roaring and ringing noise in her head. After taking six bottles of Dr. Pierce's Golden Medical Discovery she was entirely cured."

#### ARMOUR'S PLAN FOR IN MILLS

Steel Plant at Waukesha to Be Re-opened With New Facilities.

Waukesha, Wis., Nov. 25.—It is reported authoritatively here that the Armour Company has become interested in the sheet steel mills here and will furnish capital to the extent necessary for the establishment of a plant for making tin in connection with it. The local mills, which represent an outlay of \$250,000, have been idle since the commencement of the coal strike and, being out of the trust, experienced great difficulty at times in securing fuel or steel.

#### MORGAN TO DESERT AMERICA

New York Banker and Foxhall Keene May Sanker Reside in England.

Manchester, England, Nov. 25.—It is reported that J. Pierpont Morgan is about to take up a permanent residence in England, making frequent trips to America. His agents have been examining the Grosvenor square district for a suitable house. Foxhall Keene, the millionaire sportsman, will also make London his home hereafter. It is understood that Mr. Keene has declared emphatically that he would not spend another year in America.

#### SENDS BIGAMIST TO JACKSON

Jury at Houghton Find Man Guilty After Three Minutes.

Houghton, Mich., Nov. 25.—Samuel Powell was placed on trial on a charge of bigamy and convicted and sentenced to three years in the penitentiary, the jury having been out three minutes. Powell had deserted his wife and child in Cornwall, England, and married Mrs. Williams in Calumet a year ago, leaving his first wife destitute. Cornishmen throughout the copper country raised funds to bring her here to testify against her recreant husband.

#### GODFREY HUNTER MAY ESCAPE

Washington Leaves Prosecution of Minister's Son to Guatemala.

Washington, Nov. 25.—Nothing has yet been heard here from the Guatemalan government respecting the killing of William Fitzgerald by W. Godfrey Hunter, Jr. It is said at the state department that nothing can be done by this government toward prosecuting Hunter and therefore it appears that unless the Guatemalan government chooses to act the guilty persons will escape trial.

#### Troubles of the Carver.

#### CHURCH SPLITS OVER AN ORGAN

Question of Music Causes Division in Christian Congregation.

Lexington, Ky., Nov. 25.—The thirty years' war over whether an organ should be installed in the Broadway Christian church was ended when the congregation, by a vote of 341 to 202, decided to admit the organ. It was an intense battle between the organ and the anti-organ factions. The result is that the church will be split, many old members going to a Christian church in the city which enjoys the sole distinction of not having an organ.

#### LAST OF THE BASKET WEAVERS

Famed Serrano Squaw Dies at the Age of 107 Years.

San Bernardino, Cal., Nov. 25.—Mar Catalina, last of the famous Serrano Indian basket weavers, is dead. She was 107 years old, having been born 21 years after the first settlement of this valley by the Franciscans. The Serrano tribe formerly the most powerful on the coast side of the San Bernardino Mountains, has dwindled away to a mere handful of government pensioners, numbering only fifty-four.
